PUBLIC NOTICES

Import Licensing Policy for the Items of Iron & Steel licensable by the Iron & Steel Controller for October 1963/ March 1964 period

Established Importers :

No. 1/1-1/IP/O-M/63-64—The applications already submitted by the Established Importers for the period April/September 1963 will be deemed to be the applications for October 1963/March 1964 period as well. To the Established Importers Import licences for April/September 1963 period have been issued only to the extent of 50 per cent of the percentage of the base quota announced in the Public Notice No. 1/1-1/IP/A-S/63, dated 9th April 1963 due to shortage of foreign exchange. It is hereby notified that the entitlement for the period April/September 1963 stands amended to the extent of 50 per cent of the percentage of the base quota that was announced.

Import licence for the period October 1963/March 1964 will be issued on the basis of import applications submitted during period April/September 1963. The percentage of the base quota for which Import licences for the period October 1963/March 1964 will be issued will be notified later.

It might so happen that some of the applications for the period April/September 1963 have been rejected due to late submission etc. Those applications will, however, be treated as valid for the period October 1963/March 1964 and hence the concerned Established Importers need not submit their fresh applications for the period October 1963/March 1964.

Actual Users :

Import licences during October 1963/March 1964 period will be granted to Actual Users on the basis of sponsoring by the appropriate Sponsoring authorities for the following categories :—

To the extent capacity exists for processing Wire Rods and Billets into Wires and Rods, licences may be issued only for Billets (of special quality). Similarly in the case of Box Strapping and Steel Strips licences for Strips/Skelp may be issued rather than for finished products with a view to utilise the installed capacity in the country. In short licences for Wire Rods, Box Strappings and Steel Strips would be issued only after satisfying that the installed capacity is being fully utilised by importing Billets (High Carbon) and Skelp/Strips. Actual users should therefore mutually settle with the re-rollers and producers about the processing of raw material that is to be imported and furnish proof of such settlement to the Sponsoring authorities for issue of Essentiality Certificate accordingly.
